

SUBJECT:

Met with Mr. Benny Kass, Counsel, Government Information Subcommittee who advised that he met with the Chairman, Mr. Moss, yesterday and also met with Mr. Lamgan, the Counsel to the full Government Operations Committee. Mr. Moss acquiesced in a meeting with me to review our classified response to the questionnaire forwarded with his letter of May 6, but has not committed himself as yet to releasing the Agency from the requirement of responding in writing to the questions. / In this same meeting between Mr. Kass and the Chairman, but in the context of discussing the questionnaire on psychological testing forwarded to the Department of Defense by Cornelius Gallagher on the stationery of the Government Operations Committee, Mr. Moss asserted that the Central Intelligence Agency and its activities are matters within the jurisdiction of his Subcommittee as it ~~six~~ is chartered at the present time by Mr. Dawson, the Chairman of the full Committee. Mr. Kass was directed to meet immediately with the Counsel of the Full Committee with Mr. Lanigan to ascertain whether there was any intention of forwarding such a questionnaire on psychological testing to this Agency with the admonition that Mr. Moss did not want such a questionnaire going to this Agency. Mr. Moss feels that Mr. Gallagher and his Staff Assistant will seek little other than publicity from such a venture and he wants to insure himself insofar as he is able as Chairman of the Government Information and Foreign Operations Subcommittee to insure the integrity of information provided

that in his judgment the information furnished the Committee in the past by this Agency has been given the most careful and proper treatment by the Committee and he wants nothing to happen which would affect the rapport which has been established.
